

6.5.2 The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC setup as per norms

The members of the IQAC in its meeting in the month of July' 2016 felt that in some of the Departments, some posts are lying vacant due to retirement and some extra teachers are required to be recruited by the Management for smooth teaching in the institution. So guest faculties were appointed and the posts were filled up by retired and qualified persons on contractual basis.

The members also felt that inter-disciplinary seminars should be conducted to upgrade the knowledge of the students. Accordingly, Inter-Disciplinary seminars were arranged by inviting eminent persons of having academic interest.
